INDEX OF EXHIBITS

PLAST 2026 - GENERAL REGULATIONS

This version is a translation compiled solely to assist the comprehension of the original version of the General Regulations in Italian. Only the Italian text is legally binding with regard to relations between exhibitors at PLAST 2026 and PROMAPLAST srl.

1 Organization

PLAST 2026 – International Exhibition for Plastics and Rubber Industries, at its 20th edition, is organized by PROMAPLAST srl in cooperation with FIERA MILANO spa.

PLAST 2026 is an event supported by EUROMAP (Europe's Association of plastics and rubber machinery manufacturers), it is an event approved by UFI (The Global Association of the Exhibition Industry) and achieved in the previous edition the official audit of its statistics by ISF (officially acknowledged auditor in Italy) and the support by the Italian Ministry of Economic Development.

PLAST 2026 organizing office is located at the headquarters of PROMAPLAST srl: Centro Direzionale Milanofiori - Palazzo F/3 - 20057 Assago (MI) - tel. (+39) 02 82283743 - fax (+39) 02 57512490 - email: info@plastonline.org - www.plastonline.org.

In the period immediately preceding the event, **PLAST 2026** organizing office is located in FIERA MILANO spa Fairgrounds.

2 Date, Venue and opening hours

PLAST 2026 is held from Tuesday June 9 to Friday June 12, 2026 inclusive at the FIERA MILANO spa Fairgrounds, in Rho, with entrance from South, East and West gates.

PLAST 2026 is open to visitors and the ticket-paying general public, from 9.30 a.m. to 6 p.m., without any intermediate breaks. Exhibitors are allowed access to the Fairgrounds at the following times: from 8 am to 7 pm on Tuesday 9 June 2026; from 8.30 am to 7 pm from Wednesday 10 to Friday 12 June 2026.

Minors under the age of 18 are allowed to entry only if accompanied, with the obligation for the accompanying adult to provide a declaration of responsibility.

3 Admitted products

The following products, all linked to the plastics and rubber industry and in related sectors, can be exhibited or presented at **PLAST 2026**:
 machinery and plant auxiliary equipment moulds, dies and accessories raw materials, regenerated materials and composites semi-finished and end-products specialist press services and related sectors, all regarding the plastics and rubber industry.

Products to be exhibited cannot be brought into the Fairgrounds during opening hours to the public. Exhibitors are not allowed to sell products shown directly to visitors or to exact related payment. Sales can only be made in the form of orders, with delivery deferred to a later date. No products on show can be removed from the stand before the show has closed to the public.

For all products, machines and equipment, and in particular those exhibited in operation, article 26 of these General Regulations apply, along with all further regulations described in the FIERA MILANO spa Technical Regulations (see articles 20 and 25 of the present General Regulations).

4 Exhibitors from the plastics and rubber industry and from related sectors

Companies that submit their duly completed application for admission (see article 10) may exhibit at **PLAST 2026**. Additionally, publishers of scientific and technical periodicals, entities, associations, institutes, and other recognized bodies promoting, supporting, or conducting primary activities related to or associated with the product categories and characteristics of the show may also participate. Furthermore, artisan companies operating in the field of plastics and rubber are admitted to **PLAST 2026**. The regulations applied to exhibitors as described in these General Regulations are also applied to the companies described in articles 5, 6 and 7, where applicable and unless of specific distinctions.

5 Co-exhibitors

Co-exhibitors can also apply to exhibit without booking their own

stand but, for reasons of productive or industrial collaboration, are hosted in the stand of an exhibitor. The co-exhibitor has to fill out the obligatory online forms made available by PROMAPLAST srl into a reserved internet area, previous consent by the hosting exhibitor.

The admission fee for co-exhibitors is 1,650 euro + VAT, which entitles them to be included in the alphabetical list and in the product category index of the official **PLAST 2026** catalogue (both in print and online version, including mobile device version), as well as to receive one copy of the printed catalogue and an entry pass for the duration of entire show period (see article 18).

No more than two co-exhibitors are allowed in the stand of an exhibitor, except for case justified by the hosting exhibitor, which PROMAPLAST srl reserves the right to approve or deny at its sole discretion. Co-exhibitors cannot represent other companies. Unregistered co-exhibitors are not admitted.

PROMAPLAST srl and FIERA MILANO spa reserve the right to verify the brands and/or products shown and, in the event that brands and/or products belong to unregistered co-exhibitors to remove them, charging the related expenses to the main exhibitor.

6 Represented companies

If some manufacturing companies wish to exhibit at **PLAST 2026** by means of their representative's stand, the representative is required to assume the written responsibility on behalf of and towards the represented company together with the application form. The representative exhibitor is required to specify, on the obligatory online forms made available by PROMAPLAST srl into a reserved internet area, the names and respective information of all the companies represented and whose brands and/or products are presented on his stand.

For each represented company, the exhibitor is required to pay an admission fee of 350 euro + VAT, which entitles the name of the represented company to be included in the official printed and on-line catalogue, including mobile version (under the name of the representative exhibitor in the alphabetical list, and in the specific list of represented companies), and likewise the inclusion of products exhibited in the list by product category (under the name of the representative exhibitor).

The fee also entitles each represented company to one entrance card for the period of the show, which is sent to the representative exhibitor (see article 18).

In case of withdrawal from one or more represented companies, the respective admission fees already paid by the exhibitor cannot be refunded, nor can they be replaced with substitute applications.

PROMAPLAST srl and FIERA MILANO spa reserve the right to verify the brands and/or products shown and, in the case that brands and/or products belonging to represented companies who have not enrolled in the Exhibition are found, to remove said brands and/or products, charging the related expenses to the representative exhibitor.

7 Agents in Italy of direct foreign exhibitors

Foreign companies who book their own stand directly can specify their agent in Italy, if they have one, on the obligatory online forms made available by PROMAPLAST srl into a reserved internet area, assuming all responsibility on behalf of and towards the agent, who is thus included in the alphabetical list of the official **PLAST 2026** catalogue at no extra cost, in addition to the company details of the foreign exhibitors themselves.

An agent is not allowed to display brands and/or products by other companies, for whom he is also an agent, on the stand rented by the foreign company whom he represents.

PROMAPLAST srl and FIERA MILANO spa reserve the right to verify the brands and/or products shown, and in the case that brands and/or products by other companies not officially enrolled at **PLAST 2026** are found, to remove said brands and/or products, charging the related expenses to the exhibitor renting the stand.

If the agent intends to present, at **PLAST 2026**, brands and/or products by other companies that he represents, the agent is required to book a stand and to communicate the names of the other companies represented, in the devoted online forms.

8 Participation fee

The participation fee for **PLAST 2026** is officially determined by PROMAPLAST srl. Taxes and duty that are applicable in accordance with current legislation and with any new legislation that may be introduced will be added as appropriate and are payable by the exhibitor. If any tax or duty should no longer be payable in the respective financial year as a result of changes in legislation, PROMAPLAST srl will return the corresponding sums that have already been paid.

Minimum stand size is set at 16 square meters, except for special circumstances for which the decision on the part of PROMAPLAST srl shall be final and incontrovertible.

The following **participation fees** are applied at **PLAST 2026 for raw space rental**:

- 280 euro/sqm + VAT, for stands of size 16-100 sqm
- 260 euro/sqm + VAT, for stands of size 101-300 sqm
- 240 euro/sqm + VAT, for stands of size over 300 sqm

In the case of fractional square meter assignment, sizes are rounded up.

The following **surcharges** are applied:

- 1,300 euro + VAT, for stands with two open sides
- 1,950 euro + VAT, for stands with three open sides
- 2,600 euro + VAT, for stands with four open sides.

Exhibitors can apply for a stand with two, three or four open sides, preferably in the case that they book an area of at least 40 sqm, 80 sqm, or 160 sqm respectively. PROMAPLAST srl is under no obligation to guarantee the supply of space with said characteristics.

In the machinery sector, as a result of the standard display grid in the halls of FIERA MILANO spa, PROMAPLAST srl can be committed to assign a stand with two, three or four open sides only if the exhibitor requests an area of at least 100 sqm, 200 sqm or 400 sqm respectively, and on condition that the exhibitor presents the respective application form within the deadline specified in article 11.

If, for technical-organizational reasons, a stand with more free sides is assigned, even if not requested and even if the surface area of the stand is less than the minimum preferred size, the corresponding surcharge is still due by the exhibitor from the moment the assigned stand is accepted.

In any case, surcharges for more open sides are not applied to stands with a net area exceeding 500 sqm.

For stands with a **second-floor level** (see article 20 of these Regulations), there is a charge of 140 euro/sqm + VAT for each square meter of second-floor level and exhibitors who intend to install a stand with a second-floor level should apply in writing to PROMAPLAST srl **by 15 March 2026**, stating the exact size of the second-floor level.

For outdoor area, only whereas technically feasible and upon motivated request by the exhibitor, there is a charge of **140 euro/sqm** + VAT for each square meter of outdoor area and interested exhibitors should apply in writing to PROMAPLAST srl **by 15 March 2026**, stating the exact size of the required outdoor area.

The participation fee at PLAST 2026 includes the rental charge for the space and the following services:

- inclusion of the names of the exhibitor and co-exhibitor in the alphabetical list and in the list by product category in the Official printed Catalogue for **PLAST 2026**, including mention of any companies represented by the exhibitor in the devoted spaces;
- inclusion of the names of exhibitor and co-exhibitor in the alphabetical list and in the list by product category of the online **PLAST 2026** catalogue, including mobile version, within the Digital Platform of FIERA MILANO spa, which is activated 4 months before the show, including mention of any companies represented by the exhibitor in the devoted spaces;
- one copy of the Official printed Catalogue for **PLAST 2026**, available from Monday 8 June 2026;
- graphic files for general promotion, available for exhibitors who wish to use it.
- n.2 invitation-codes/sqm, available from 31.3.2026, valued 5 euro + VAT/each., for the pre-registration and direct access of customers during show hours (additional codes may be purchased from the same date at the same price of 5 euro + VAT/each).

Also included in the participation fee are the costs absorbed by PROMAPLAST srl for general promotional activities of **PLAST 2026**

and advertising, in Italy and abroad, also on specialized online portals, carried out by PROMAPLAST srl, as well as complementary events organized by PROMAPLAST srl (conferences, meetings etc.) before and during the Exhibition. This includes the possible hospitality of delegations of professional operators and Italian and foreign authorities, as well as speakers and expert guests.

Upon balance payment of the participation fee, each exhibitor has to pay the fee invoiced by PROMAPLAST srl and due to FIERA MILANO spa for indispensable services (see article 9 of the General Regulations).

9 Indispensable services supplied by FIERA MILANO spa

For some indispensable services supplied by FIERA MILANO spa and/or their designated suppliers under their responsibility, PROMAPLAST srl charges a fee of 21 euro/sqm + VAT, which the exhibitor must pay at the time of settling the participation fee.

PROMAPLAST srl is without responsibility for any inadequacy in the provision of these services, even though maximum consideration is given to an exhibitor who timely documents, during the exhibition, the unsatisfactory nature of the services provided by FIERA MILANO and said third-party suppliers.

Above-mentioned indispensable services include:

- sign with the stand number, which is delivered before the end of the mantling period;
 - technical assistance during mantling, the show itself, and dismantling;
 - floor carpet in the Halls' gangways;
 - one car park inside the Fairgrounds for each exhibitor and co-exhibitor during entrance hours for exhibitors;
 - wi-fi connection inside the Halls during show hours (200 Kbps);
 - cleaning of the stand floor area (including emptying of any rubbish bins present), performed after 7 pm from Monday 8 to Tuesday 11 June 2026;
 - approved fire-extinguisher (a 6-kg powder extinguisher; 1 extinguisher for each 50 sqm area of stand or fraction thereof);
 - The initial connection to a 32 A/400 V 3P+N+T CEE socket with an electrical power of 10 kW, intended for lighting and motive power, will be made to the existing 32 A/400 V 3P+N+T CEE socket in the stand (excluding internal distributions and related connections to machines or equipment), along with the related energy consumption deliverable from the socket itself. **Important:** The exhibitor with operating machinery can increase the electrical power for motive power without additional costs, exclusively under the conditions specified in article 11.
 - Unified Patrimonial Fee: notwithstanding the participation regulations, the Exhibitor is required to pay the fee to the Municipality of Rho as provided by Law 27/12/2019, n. 160. Following the agreements concluded by Fiera Milano with the Municipality of Rho and in the interest of the exhibitor categories, this tax is established on a lump sum basis based on the area occupied by the Exhibition. To also avoid the burdensome procedures that the Exhibitors would be required to carry out directly, this tax is included in the participation fee and Fiera Milano will subsequently make the payment to the Municipality of Rho.
 - copyright payable in function of audiovisual installations in the stand, which are subject to taxation. This does not include the rights payable in the case of live performances (with singer and/or musical instruments), for which the exhibitor should pay the duty owed directly to SIAE offices in the city. If the exhibitor wishes to distribute audio, video or multimedia products containing intellectual property, or excerpts from works of intellectual property, protected as regards author's rights in accordance with Law n° 633, 22.4.1941, the rights payable should be paid in advance, and the procedures regarding the application of the respective official label to the support must be performed in accordance with article 181bis of the same law.
- The unauthorized use of intellectual property and the absence of the SIAE sticker on said supports are subject to criminal penalties, in accordance with articles 171 foll. of law 633/41;**
- duty owed in accordance with articles 72 and 73bis, law 633/1941, to the performing artists and the phonographic producers owning

the rights for recordings, and the Società Consortile Fonografici (SCF, Recording company consortium) which acts on their behalf. This does not include the rights owed to performing artists and recording companies with respect to the provisions of article 73 of the above-stated law, for the broadcast of recorded music and music videos during fashion shows, and DJ sets with or without dance performance. Therefore, an exhibitor who wishes to organize this sort of event should contact SCF - Società Consortile Fonografici, Via Leone XIII, 14 – Milan, in order to complete the procedures specified for this legislation.

10 Application

The application for admission to **PLAST 2026**, submitted exclusively using the mandatory online forms provided in the dedicated internet area reserved by PROMAPLAST srl, to be filled out in all its parts by the exhibitor - with subsequent printing and sending of the same forms duly stamped and signed - must be received by PROMAPLAST srl - Centro Direzionale Milanofiori - Palazzo F/3 - 20057 Assago (Milan) and must be obligatory accompanied by the admission fee – as a partial reimbursement of the administrative expenses incurred by the organizer – of 650 euro + VAT (including the company logo in the official **PLAST 2026** catalogue) and by a deposit (down-payment of the participation fee) of 100 euro + VAT for each square meter booked.*

In case of VAT exemption according to articles 8/8bis/9 of DPR 633/72 and any subsequent updated, 2 declarations have to be enclosed: one addressed to PROMAPLAST srl and one addressed to FIERA MILANO spa.

PROMAPLAST srl accepts only application forms that are signed by the legal representative of the exhibiting company, compiled in compliance with the provisions of these General Regulations, and that are accompanied by the payment of the admission fee and down-payment of the participation fee. Exhibitors are not allowed to add their own conditions, and/or variations in the conditions of participation, to the application forms.

The application form must be considered as an irrevocable proposal made by the prospective **PLAST 2026** exhibitor to PROMAPLAST srl and PROMAPLAST srl has the right to accept or refuse the proposal. If PROMAPLAST srl does not accept the application, the sum paid by the prospective exhibitor is promptly returned, without the application of any interest.

In compliance with art.1, co. 909, Law 27 December 2017 (compulsory issuance of electronic invoice between private companies from 01/01/2019), the exhibitor with invoicing address in Italy has to submit to PROMAPLAST srl its own Certified Electronic Mail address (PEC) and/or its own delivery code (seven figures), in the devoted fields provided by PROMAPLAST srl in the compulsory online application forms.

*From 1 January 2011, according to D.Lgs. n.18/2010 following UE Directive n.8/2008, foreign exhibitors subject to taxation are not subject anymore to VAT on the participation fee for **PLAST 2026** (see article 8), neither on the indispensable services invoiced by PROMAPLAST srl and due to FIERA MILANO spa (see article 9). However, provisions mentioned in the same articles 8 and 9 are valid regarding possible newly introduced or re-introduced taxation, following further law modifications.

Moreover, exhibitors without a permanent address in Italy can recover Value Added Tax still due on the exhibition's invoices for additional services: for further information, see "VAT Refund" on www.plastonline.org, "exhibitors area".

11 Discounts on fees

For **PLAST 2026** the following discounts on fees (counted upon balance, after the official stand notification) are set by PROMAPLAST srl:

- a) **20% discount** on the participation fee is granted to exhibitors who have submitted the application forms, as described in article 10 above, duly completed and accompanied by the respective admission fee and down-payment with a fix value date **on or before 15.6.2025**, with all bank charges paid by the exhibitor, within the same deadline.
- b) **10% discount** on the participation fee is granted to exhibitors who have submitted the application forms, as described in article

10 above, duly completed and accompanied by the respective admission fee and down-payment with a fix value date **after 15.6.2025 and by 31.7.2025**, with all bank charges paid by the exhibitor, within the same deadline.

- c) Provided that the regular application is sent by the deadline of 31.7.2025, exhibitors who book a larger area at **PLAST 2026** compared to PLAST 2023 are granted to have **an additional 10% discount, calculated only upon the additional area**, on the condition that no other co-exhibitors or represented companies are hosted, and neither their brands, logos or products apart those, in case, hosted at PLAST 2023. PROMAPLAST srl and FIERA MILANO spa reserve the right to carry out checks and cancel any discounts, charging the corresponding amounts to the exhibitor in the case of violation of this provision.
- d) At **PLAST 2026** halls are subdivided by product category, with possible thematic areas within them. For this reason, exhibitors who are regularly registered by the final deadline of 31.7.2025 and request one or more additional stands to exhibit their products in different halls or sections can benefit from an **additional 10% discount** on the participation fee **calculated only on the area of the smaller stand**.
- e) For exhibitors who are regularly registered by the final deadline of **31.7.2025** and who display **operating machinery at PLAST 2026**, it is possible to include in the participation fee the cost for the connection of additional sockets, in addition to the first 10 kW socket already included, as provided by Article 9. This possibility applies whether the provision for the connection is already available at the existing **32 A/400 V 3P+N+T CEE sockets** in the stand, or if supplementary lines are necessary (within the limits of those that can be installed in the FIERA MILANO S.p.A. district). Internal distributions and related connections to machines or equipment are excluded, on the condition that:
 - 1) the exhibitor completes the mandatory order forms specifying the necessary power, as already anticipated in the admission form, for the individual operating machines and delivers them to FIERA MILANO spa within the deadlines specified in the online Exhibitor Portal, as per article 19;
 - 2) the exhibitor guarantees the operation of each machine for at least 50% of the time the exhibition halls are open to the public, except for justified technical reasons;
 - 3) the request is appropriate to the actual operating requirements for the machinery.

Important: the conformity of the requests is assessed by PROMAPLAST srl and by FIERA MILANO spa; for requests that are approved, PROMAPLAST srl and FIERA MILANO spa reserve the right to perform checks and to charge the total cost of the power required if differences are detected between the actual use with respect to the power requested (as ascertained at the time that machines are put into operation), and/or if the time for which plant is operating differs with respect to the required operating time as described above, and checked by means of the appropriate inspections.

Once a request has been delivered and approved, FIERA MILANO spa determines the amount that may be charged to the exhibitor in the case of electricity misuse. In any case, the cost of installation of electric power – whether this is included in the participation fee or whether the power is charged to the exhibitor in the case of non-compliance with the above stated conditions – includes electricity consumption.

The discounts and benefits for exhibitors who enroll **by 15.6.2025** as mentioned in paragraphs **a), c), d)** and **e)** of this article 11, are cumulative where applicable.

The discounts and benefits for exhibitors who **enroll after 15.6.2025 and by 31.7.2025**, as described in paragraphs **b), c), d)** and **e)** of this article 11, are cumulative where applicable.

After the aforementioned deadline of 31.7.2025, applications do not give right to the discounts above described, in whatever circumstances.

12 Stand assignment

Stand assignment is determined by PROMAPLAST srl upon un-

questionable judgment, primarily in accordance with the subdivision by the various product sectors at the show, in consideration of the characteristics of the products to be exhibited – as declared by the exhibitor in the mandatory online application forms in the website www.plastonline.org - and also considering the technical plant within the halls of the FIERA MILANO spa Fairgrounds and the chronological order of submitted applications. The application of these product classification and technical criteria cannot be guaranteed for exhibitors who fail to send their application form in due time, and likewise for exhibitors who do not compile the mandatory form concerning exhibits and technical needs correctly. The assignment of stands to exhibitors presenting their application after 31.7.2025 is performed in accordance with the spaces that may still be left and that may be available in the **PLAST 2026** exhibition halls. PROMAPLAST srl proceeds to communicate the allocation of the stands through the exhibitor's reserved area on the website www.plastonline.org. Exhibitors receive their personalized codes necessary to log in this area based on the date of submission of their application forms by the end of November 2025 (in case of regular registration by 31.7.2025, or later in the case of later registration).

The definite confirmation of the assigned stand is given by the official notice of stand allocation issued by PROMAPLAST srl and not by the confirmation of acceptance by the exhibitor. For technical and operational reasons, PROMAPLAST srl reserves the right to change the location of stands initially assigned, giving timely notice to the interested exhibitor and always in compliance with the subdivision by product at **PLAST 2026**. A change in stand position of this sort does not entitle exhibitors to withdraw their application, and neither does it entitle exhibitors to any reimbursement for damages of whatever nature. In all cases, exhibitors are not entitled to take legal action against PROMAPLAST srl for damages of whatever nature.

Exhibitors are expressly prohibited from subletting the stand assigned, or a part thereof.

13 Withdrawal

If an exhibitor decides to withdraw his application at **PLAST 2026**, PROMAPLAST srl acquires the right to retain the sums paid by the exhibitor for whatever reason, and to use the respective area as it wishes. If the exhibitor withdraws after having received the official stand allocation notice, and in any case after 31 December 2025, the exhibitor is required to pay the entire participation fee. In any case, PROMAPLAST srl has all and every right to take legal action and to sue for damages the exhibitor who has withdrawn, if deemed applicable.

14 Reductions

Before the official stand allocation notice, and in any case before 31 December 2025 in the case that the official notice has not yet been issued, if an exhibitor wishes to reduce the area that was booked on enrolment for **PLAST 2026**, the deposit paid for the area relinquished by the exhibitor is retained by PROMAPLAST srl as reimbursement for organizational expenses. In any case, **requests for reductions of over 15% of the area booked are not accepted.**

15 Terms of payment

The balance of the participation fee must be paid by the exhibitors within 15 days of receipt of the debit note issued by FIERA MILANO spa, on behalf of PROMAPLAST srl, following the official stand allocation notice. In the case that such official notice is issued after 31 December 2025, the balance of the participation fee must be paid on receipt of the debit note.

It is allowed entrance to the Fairgrounds and the contractual services are supplied only to the exhibitors who settle balance payment in due time. Payments for the above-mentioned fees must be made to:

FIERA MILANO SPA payment reason PLAST 2026

UNICREDIT SPA – ROMA

IBAN IT44D0200805364000004593617

BIC/SWIFT UNCRITMMXXX

with bank expenses to be borne by the exhibitor, or by means of a cheque made out to FIERA MILANO spa. Payments made from outside Italy by Italian or foreign exhibitors must be made in such a way so that any bank expenses be paid entirely by the exhibitor, who has

to provide clear instructions for the bank transfer specifying that all charges made by the respective Italian and foreign banks must be paid by said exhibitor.

On behalf of PROMAPLAST srl, the holder of the above current account is FIERA MILANO spa, whose registered office is in Piazzale Carlo Magno 1, 20149 Milan, Italy, VAT N. 13194800150.

Notice on financial flow track duties:

PROMAPLAST srl, by supplying services foreseen in the present Regulations, ensures compliance of all mentioned duties, following article 3 of law 13.08.2010, n. 136 and further modifications, with regard to any exhibitor that is a public body or controlled by a public body or considered as "appointing contractor" according to said law, or the contractual relation can be cancelled with immediate effects. Said exhibitor has to fill the application form with the mandatory code CIG (identification number of the public tender) or whereas necessary with CUP (sole project code) concerning underpinning public investment.

16 Advertising in the Fairgrounds and on-line advertising

With the exception of advertising promotion within the exhibitor's stand, other forms of advertising promotion can be performed by exhibitors in permitted forms within the Fairgrounds, as managed by FIERA MILANO spa in cooperation with PROMAPLAST srl, and said companies reserve exclusive rights to the management of advertising, even in the case that specialist agencies are also involved, following the guidelines of the portal described in article 19 of these Regulations. Exhibitors can also commission paid advertising insertions in the website www.plastonline.org, and likewise in the Digital Platform run by FIERA MILANO spa in the section dedicated to **PLAST 2026**, starting from 4 months before the exhibition, following the guidelines made available in due time within the above mentioned platform.

17 Official catalogue – standard information included, and supplementary information subject to payment

PROMAPLAST srl reserves exclusive rights for the publication of the official **PLAST 2026** catalogue, even on electronic support and/or further means according to later technical developments, and to the sale of this publication. The catalogue contains the alphabetical list and the list by product category, plans of the Exhibition, other useful information, and paid advertising (euro 600 + VAT/page), bookable by exhibitors using the optional online form, **by 28 February 2026. This deadline also marks the deadline after which any further enrolments, or changes in company information and product category for already enrolled companies, are made exclusively on-line**, except in the case that PROMAPLAST srl should decide – its decision in this regard being final and incontrovertible – to publish a supplement to the printed catalogue.

Exhibitors and co-exhibitors provide and undersign the data for free inclusion in the alphabetical list and the list by product category, and likewise the orders for additional insertions subject to payment, by compiling the mandatory online forms made available by PROMAPLAST srl into a reserved internet area.

Exhibitors and co-exhibitors are required to promptly inform PROMAPLAST srl of any variations that may have occurred for the data provided with said forms, including reference to companies represented by the exhibitor or a possible Italian agent for a foreign company that has booked a stand, whose data are filled in the devoted section of the online application form.

Exhibiting companies have sole responsibility for the consequences of failing to provide prompt notification of changes in information (see also article 34 regarding the exhibitor's details).

Exhibitors and co-exhibitors can request free insertion of their company names in the list by product category in correspondence with a maximum of fifteen products listed in the official Index of Exhibits. Exhibitors and co-exhibitors can request that their company name is included in the list by product category in correspondence with a maximum of fifteen further products listed in the official Index of Exhibits, at the cost of euro 100 + VAT for every 5 additional products (the same cost is applied to less than five additional products). Exhibitors that represent other companies have to comply with the same limitations on the listings for products exhibited on behalf of

the companies that they represent.

Exhibitors and co-exhibitors can request the paid insertion in English only of listings of plant or products that are not included in the official Index of Exhibits, as long as said products are pertinent to the trade sectors covered by **PLAST 2026**; the rate applied for said extra descriptions, published in the alphabetical list under the company information, is euro 15/word + VAT, with 3 words as minimum, up to a maximum of 30 words.

Exhibitors and co-exhibitors who have changed company name or who intend to make reference to brands or other commercial names that they utilize, can request paid insertion in the alphabetical list, with a reference to the current company name, at the price of euro 200 + VAT for every additional company name, brand or initials.

Exhibitors and co-exhibitors commit to provide their logo (the cost of which is already included in the participation fee) in the format specified in the appropriate section of the online registration forms **by 28 February 2026**. This order also includes the customization of the official **PLAST 2026** banner with the exhibitor's company logo. This customized banner will be made available to the exhibitor within 31 March 2026, for promoting their participation on web channels, social and e-mail.

Exhibitors and co-exhibitors accept all responsibility as regards orders for the insertion of company or product information that is not pertinent to their business; therefore in no case can PROMAPLAST srl be held responsible for such erroneous insertions.

18 Exhibitor-cards, and cards for mantling-dismantling

PROMAPLAST srl supplies exhibitor-cards, for employees and representatives of exhibiting companies, for the period of mantling, the show itself, and dismantling, according to stand surface area, up to a maximum of 30 cards:

- for stands up to 50 sqm: 7 cards
- from 51 to 100 sqm: 12 cards
- from 101 to 200 sqm: 18 cards
- from 201 to 300 sqm: 24 cards
- over 300 sqm: 30 cards.

Exhibitors hosting represented companies in their stand are entitled to one extra card for every represented company enrolled at **PLAST 2026** by means of the respective online form.

A co-exhibitor is entitled to one card.

Supplementary cards are subject to payment and can be requested from PROMAPLAST srl by means of the documents listed in article 19 below.

In order to gain access to the Fairgrounds and to pass the security checks, the name of the card-owner and the exhibiting company name must be added to all the cards, to be requested after the official stand notification, through the online Exhibitor Portal by FIERA MILANO spa, Exhibitor's Cards section.

The exhibitor-cards provide access to the Fairgrounds in the periods of mantling and dismantling (see articles 21 and 22), and during the period of the show itself (see opening hours in article 2).

For access to the Fairgrounds during mantling and dismantling, and in particular for suppliers and/or for contracting companies working on behalf of the exhibitor, other cards are supplied according to requirements.

These are specific "mantling-dismantling cards" and they can be used only for those periods (and not for the show period itself).

After the official stand notification, through the online Exhibitor Portal by FIERA MILANO spa, "Mantling and Dismantling cards" section, the devoted internet area for pre-registering people, trucks and car that need access during mantling and dismantling is made available. In said internet area, the general plan of the Fairgrounds can be also consulted, including access Gates and "Rules about setting up and breaking down".

After the confirmation via e-mail is sent, both the exhibitor's cards and the mantling-dismantling cards have to be printed at the recipients' care and presented at the Gates of the Fairgrounds of FIERA MILANO spa and read through devoted scanners.

19 Exhibitor Portal, mandatory and optional online forms

After the official stand notification, the exhibitor receives access

(FieraID) via e-mail to the online Exhibitor Portal by FIERA MILANO spa, including the technical plan of the assigned stand, the description of the utilities supply, mandatory online forms for safety reasons and optional online forms for additional and technical services that might be ordered to FIERA MILANO spa, should these be required, in the "Purchase in E-service" section.

The Exhibitor Portal, in the "Manage documents" section, specifies which forms must absolutely be compiled by the exhibitor for technical or safety reasons, and returned to FIERA MILANO spa. If the exhibitor does not comply with these instructions and does not return the mandatory forms within the specified deadlines, FIERA MILANO spa, in cooperation with PROMAPLAST srl, reserves the right to block access to the **PLAST 2026** Fairgrounds.

The mandatory forms or form sections do not involve any extra costs for exhibitors, except in the case of any supplementary requests that they may decide to make when compiling the forms.

The Exhibitor Portal also provides a summary of the orders made by each exhibitor for **PLAST 2026**, and instructions for on-line personal accreditation for the "exhibitor-cards" and the "mantling-dismantling cards" as described in article 18 above.

In addition, exhibitors whose stands are no larger than 50sqm can, if they wish, order a standard stand furnishing system from FIERA MILANO spa, which is not included in stand rental rates as described in article 8. The cost per sqm of the furnishing system varies according to the materials and furnishings chosen. Exhibitors can also commission a stand with personalized design from FIERA MILANO spa, and in this case they can request a specific estimate from FIERA MILANO spa.

20 Stand fittings and second-floor levels

In order to ensure that **PLAST 2026** provides a satisfactory overall effect, PROMAPLAST srl has defined the stand fitting rules, in accordance with FIERA MILANO spa.

Exhibitors are required to fit up their stands. Each wall has to be refinished as per the rule of the art, including the back-wall. The standard stand height is 3.20 m. For any structure exceeding this height (including second-floor levels and only with the exception of displayed products), the exhibitor is required to keep perfectly neutral the exceeding part toward the adjacent stand neighbor. Any trade mark or graphics toward the adjacent stand neighbor has to keep at least 3 m distance from the same, unless written approval of the stand neighbor is given and notified by the interested exhibitor in due time to FIERA MILANO spa. **PROMAPLAST srl and FIERA MILANO spa reserve to right to verify during mantling and, in case of non-compliance with present provisions, may carry appropriate refinishing whereas possible, charging related costs to the interested exhibitor.**

In accordance with said rules, stands that are at least 100 sqm in area, in whatever hall at **PLAST 2026**, can have a second-floor level (just one extra floor level). Exhibitors whose stands have an area of less than 100 sqm, if interested in a second-floor level, have to send a request in advance to PROMAPLAST srl, assessing feasibility with FIERA MILANO spa. The total area of the second-floor level can be at most 50% of the stand's floor area, with a maximum of 200 sqm of second floor, irrespective of the stand's floor area.

Stands with second floor levels have to comply with this provision of the General Regulations for **PLAST 2026**, and in addition, they have to comply with the limitations and technical specifications provided by FIERA MILANO spa. These standards, which regard the use and installation of the stands, the safety signs for second floor levels, and so forth, are detailed in the FIERA MILANO spa Technical Regulations and in the supplement titled "Regulations for the Assembly of Intermediate Floors in the Exhibition Areas" which are part of the exhibitor documentation. These documents have to be checked for any possible update from the website www.fieramilano.it under **PLAST 2026** in the section "Exhibitors, Technical Documents" and from the website www.plastonline.org, in the "Exhibitors" section. **Exhibitors are required to comply with the instructions contained in the FIERA MILANO spa Technical Regulations, and, in the case of the construction of second-floor levels, they must also follow the additional instructions contained in said specific Regula-**

tions, with the obligation on the part of the exhibitor to notify such provisions also to its own appointed suppliers (stand fitters, forwarders etc.).

Exhibitors must apply for approval of the design of the second-floor level from FIERA MILANO spa by uploading the documentation required in the devoted section "Enable Stand Fitter and Upload Stand Fitting design" in the Exhibitor Portal within the deadlines stated in the same.

Once the design for a second-floor level area has been approved by FIERA MILANO spa, the administrative offices of FIERA MILANO spa issues a debit note on behalf of PROMAPLAST srl, for the second-floor level area (see article 8), which the exhibitor must pay on receipt of said note.

21 Mantling: start and end of work

The halls of **PLAST 2026** can be accessed for mantling from Monday 1 June to Monday 8 June 2026 (see the "Rules about setting up and breaking down" published by FIERA MILANO spa in the website www.fieramilano.it under **PLAST 2026** in the section "Exhibitors/ Technical Documents" and in the website www.plastonline.org, in the "Exhibitors" section), also based on a possible differentiated schedule that is notified to exhibitors at least 60 days before the show starts, if deemed necessary.

During mantling the halls of **PLAST 2026** can be used by exhibitors without any extra charges, at the times detailed in the above-mentioned "Rules".

Exhibitors and their authorized suppliers are required to follow the times at which they are allowed to be present in the FIERA MILANO spa Fairgrounds as detailed in the above-mentioned "Rules".

Failures to follow these rules, whether during mantling or dismantling (see article 22 below) give rise to penalties as detailed in the FIERA MILANO spa Technical Regulations.

Extensions to the times, at which mantling and dismantling work can be performed, can be requested from FIERA MILANO spa who, in the case that the request is accepted, provides the exhibitor with an estimate for the respective fee, ready for approval by the exhibitor.

Exhibitors are required to begin mantling work by Saturday 6 June 2026 at the latest, or to provide justification in writing to PROMAPLAST srl within the same deadline, stating that they intend to begin mantling only during the last two days available, Sunday 7 and Monday 8 June 2026.

Otherwise, PROMAPLAST srl and FIERA MILANO spa reserve the right to utilize the stands left unfurnished to construct linking structures as necessary or to install areas of public utility, in order to safeguard the satisfactory appearance of **PLAST 2026**, with all charges upon the exhibitor. In this case, the respective exhibitor can in no circumstances request the reimbursement of amounts already paid, and is required to complete the payment of any sums that may still be owed to PROMAPLAST srl and/or to FIERA MILANO spa.

Exhibitors must inform PROMAPLAST srl and FIERA MILANO spa as to the names of the companies (stand fitting contractors, forwarders, etc.) performing work in the stands that have been assigned to them. The right of retention described in article 24 also applies to goods belonging to said suppliers who, in such cases, are considered as being co-debtors with the exhibitor.

22 Dismantling and storage of abandoned goods

After the show has ended, stands must be removed from Friday 12 June 2026 after 6 pm till 7.30 pm (only hand carried goods) and from Saturday 13 till Monday 15 June 2026, which is the deadline as stated in the "Rules" as described in article 21 above.

Only for the exhibitors who showcase complex machinery and that for assessed and objective necessities need extended timing for related dismantling compared to official terms, the Halls can be made available during Tuesday 16 June 2026 without additional charges, previous acceptance of related request by FIERA MILANO spa. For extended hours during dismantling days, the same provisions set in preceding article 21 are valid.

If a stand has not been disassembled and cleared by the end of dismantling, FIERA MILANO spa cannot accept any responsibility for goods and materials, and for whatever is stored in the stands,

and it reserves the right to clear the stand and store the materials, accepting no responsibility in these operations, and at the exhibitor's expense and risk. After two months, goods that have not been reclaimed can be sold by auction, and the sums received, after having deducted expenses and other costs due to FIERA MILANO spa, are credited to the exhibitor. The fact that an exhibitor's materials remain in the Fairgrounds entail the payment of a charge to FIERA MILANO spa for the occupation of Fairgrounds space after the duration of the show itself.

23 Unattended stand and/or early dismantling

During the opening hours specified in article 2 and for all days of the exhibition, **the exhibitor must ensure the presence at the assigned stand and cannot in any way start the dismantling operations (including removal of graphics, products, packaging of various materials, etc.) before 6 pm on Friday 12 June 2026, which is the public closing time. The exhibitor assumes all responsibility for any non-compliance and resulting complaints from visitors.**

24 Right of retention - Statements of account - Exit Passes

During the days preceding the end of the show, FIERA MILANO spa provides a summary of all the invoices issued for supplementary services and utilities, and for any other charges not yet paid. Any claims regarding the list of expenses in this account must be presented to FIERA MILANO spa within the end of the show or they are not accepted anymore. The statement of account is uploaded in the Exhibitor Portal and payment of outstanding fees at the exhibitor's charge can be settled directly by the exhibitor's offices through bank transfer or with credit card accessing the aforesaid Exhibitor Portal, or by showing the statement of account at the banks' offices in the Fairgrounds. The exit at the end of the exhibition of the exhibits, as well as the fittings and any other material pertaining to the exhibitor, is allowed upon condition that exit passes "Exit Pass" are shown to the surveillance guards at the gates of the Fairgrounds; said passes are enabled for exit upon verification that all contractual obligations assumed by the exhibitor towards FIERA MILANO spa and the organizer are duly fulfilled. After the end of the show, PROMAPLAST srl reserves the right, within the limits of law and current regulations, to prevent the exhibitor from removing goods from the Fairgrounds, and likewise the property of any third party suppliers responsible for the stands and for other work, in the case that the exhibitor fails to comply with the contractual agreements accepted by signature of the application form for admission to **PLAST 2026** and specified in these Regulations (article 2756 of the Civil Code), including the relations between the exhibitor and FIERA MILANO spa, and the latter company's suppliers. PROMAPLAST srl and FIERA MILANO spa accept no responsibility for any damage to materials during the possible period in which the right of retention is implemented.

25 Health and safety at work

For the entire duration of the event, including setup and dismantling of the stands and all associated activities, every exhibitor is required to comply meticulously with the entire applicable system of rules and regulations, particularly those on occupational safety, health and the physical well-being of workers, as well as with employment, pensions and social security law and including waste disposal.

During stand setup and dismantling, and for any other associated or linked activity, exhibitors further undertake to comply with and ensure that all contractors working on their behalf comply with FIERA MILANO spa Technical Regulations and all amendments and additions therein, which the exhibitor expressly declares to fully acknowledge, and the provisions contained in article 88, subsection 2-bis and the associated implementational Ministerial Decree issued on 22.7.2014 by the Ministry of Employment and Social Policies and by the Ministry of Health.

The Technical Regulations, which may be consulted on FIERA MILANO spa website under **PLAST 2026** (www.fieramilano.it, link to the "Exhibitor technical information"), also contain precautionary rules on exhibition safety (fire prevention, electrical installations, environmental protection etc.), excluding specific safety-related rules for activities undertaken by the exhibitor or contracted out by ex-

hibitors to contractors (stand set-up/dismantling of the stand and associated activities), for which the exhibitor remains responsible for oversight and compliance.

In order to comply with the obligations of the above-mentioned Ministerial Decree issued on 22.7.2014, PROMAPLAST srl offers access to these specific documents, Annexes IV and V of the Ministerial Decree, through its website, while available also in FIERA MILANO spa website.

Conduct that fails to comply with the above-mentioned safety regulations, in particular if it impacts general safety in the pavilions and with regard to other parties in attendance, may cause prompt intervention by PROMAPLAST srl and/or FIERA MILANO spa as part of regular or random checks, resulting in the immediate cut-off of utilities supplied to the stall or its immediate closure. Any additional consequence that may arise out of a failure to comply with the above-mentioned provisions is the Exhibitor's and its contractors' sole responsibility.

FIERA MILANO spa may bar staff working for contractors/freelance workers operating on behalf of the exhibitor from the Fairgrounds if they do not possess an ID badge as envisaged under article 18 subsection 1u, article 21 subsection 1c, and article 26 subsection 8 of Legislative Decree 81/08, and non-EU hirees who, even if they hold an above-mentioned badge, do not have a valid and legible Italian green card or a valid and legible ID card.

This charge is passed on to the employer responsible for and the contact person for any barred staff.

As the contracting party, the exhibitor who authorized such company to operate on site on its behalf to carry out work is informed of the charge.

Exhibitors shall be responsible for complying with applicable laws and regulations regarding all works implemented and organized under their responsibility and on their behalf, including setup, structures, installations, products exhibited and all other associated activities.

Every exhibitor is required to appoint a "stand safety responsible", also defined "Contact Person of the Exhibitor for the Exhibition Safety" (RSE) who, for safety-related matters, takes on all responsibility for all parties who may be involved in terms of the work carried out on behalf of the exhibitor, for the entire duration of their stay on site. At the exhibitor's discretion, and wholly under its responsibility, the stand safety responsible / Contact Person of the Exhibitor for the Exhibition Safety (RSE) may be a different individual during each of the three previously-mentioned phases (set-up, exhibition, dismantling).

PROMAPLAST srl and FIERA MILANO spa must be informed of the name of the stand safety responsible / Contact Person of the Exhibitor for the Exhibition Safety (RSE) and his/her phone numbers prior to the start of setup work, in any case prior to the arrival, entrance of workers and materials on the Fairgrounds and beginning of setup operations.

The names and contact details of the Contact Persons for the Exhibition Safety of neighboring stands are made available to the exhibitors by FIERA MILANO spa and PROMAPLAST srl. Each exhibitor, through his own Contact Person for the Exhibition Safety, must work jointly with the Contact Person for the Exhibition Safety of the neighboring stand so that, through the exchange of information, it is possible to identify any preventive measures to be applied to eliminate or, where this is not possible, minimize the risks of interference, where present.

If there is a failure to convey the name of the stand safety responsible / Contact Person of the Exhibitor for the Exhibition Safety (RSE), this responsibility is retained by the exhibiting company's legal representative. FIERA MILANO spa and PROMAPLAST srl must promptly be informed of any change to the name of the stand safety responsible / Contact Person of the Exhibitor for the Exhibition Safety (RSE).

The most relevant obligation for the Customer concerns the DUVRI (unified document for the assessment of interference risks), or the PSC (safety and coordination plan) in the event that, respectively, the rules contained in article 26 of the Italian Legislative Decree 81/08 are applied, or those contained in Title IV of the same

decree, relating to work safety at construction sites, according to the provisions of the Italian Interministerial Decree of 22 July 2014. This documentation must be uploaded to the appropriate section of the Fiera Milano e-services platform available to the competent authorities (ATS and the police) and be present at the stand for the entire period of the event (including assembly and dismantling).

Access to the stand by contractors operating on behalf of FIERA MILANO spa for the supply of services can only take place in the presence of the stand safety responsible / Contact Person of the Exhibitor for the Exhibition Safety (RSE) and after having received their approval. Fair surveillance and security staff are exempt from this restriction.

25 bis - Measures to guarantee personal safety in the Fairgrounds of FIERA MILANO spa

FIERA MILANO spa, in observance of the instructions provided by the Public Security Authority, has adopted the infrastructural, organizational and operational measures deemed necessary to guarantee the safety of the individuals present for any reason in the Fairgrounds.

Merely by way of example, the following may be provided for, at the sole discretion of FIERA MILANO spa:

- a) particular means of access to and exit from the Fairgrounds (specific entrances/exits or reserved lanes, times, systems for the regulation and control of accesses and flows), which may be differentiated according to user categories;
- b) security checks, which may also be carried out with the aid of fixed or portable equipment or instruments, on people, baggage and personal effects, both upon entry to the Fairgrounds and inside it, and, where necessary, upon exit. These checks will be carried out by FIERA MILANO spa staff or by third parties entrusted by FIERA MILANO spa for the purpose. Without prejudice to notification to Law Enforcement Agencies and any measures that may be adopted thereby, users who refuse to undergo checks will be prevented from entering the Fairgrounds. If said users are already in the trade fair district, they will be removed immediately. Users invited to undergo a check must guarantee maximum collaboration, so that the check can be carried out as effectively and quickly as possible given the nature of the activity. Following said checks, and without prejudice to notification to Law Enforcement Agencies and any measures that may consequently be adopted thereby, FIERA MILANO spa reserves the right, at its sole discretion, to refuse entry to the trade fair district to suspect individuals or objects, and to immediately remove any suspect individuals already inside the trade fair district; suspect objects must be immediately removed from the trade fair district by and under the responsibility of those in possession of them. FIERA MILANO spa is under no obligation to provide services for the safekeeping of suspect objects;
- c) variations or limits to pedestrian and vehicular routes within the Fairgrounds, including the positioning of barriers, Jersey barriers, speed bumps and the like;
- d) forcible removal, at the risk and expense of the owner, of means of transport of work equipment, objects or personal effects deemed suspect or liable to interfere with security checks.

The measures in this paragraph are also applicable to all visitors and guests admitted to **PLAST 2026**.

26 CE safety mark – Patents – Machinery in operation

The machines and products exhibited must be built or manufactured or owned by the exhibiting companies and/or by represented companies, who have enrolled at **PLAST 2026**; said products must comply with CE standards and with the respective safety marks.

In addition to CE compliance, if the exhibitor shows reconditioned plants, a notice on the occurred reconditioning operations must be shown. Machinery or products without the CE mark, for example prototypes, can only be exhibited if they are accompanied by notices stating that the machinery or products can be sold only after having received authorization to apply the CE mark. PROMAPLAST srl reserves the right to perform checks on this aspect, without any obligation on its part, being the exhibitor fully liable for any consequence

deriving from the exhibits displayed. Machinery or products that do not comply with these conditions can be expelled or removed from the stand, at the exhibitor's expense and risk. Exhibitors cannot present, on their own stands, machinery or products that are in conflict with patents belonging to a third party. Should a third party come into knowledge of a presumed violation of this type, it is possible to consult with the specific office in the Fairgrounds in order to initiate the patent dispute. The party promoting this action must notify the exhibitor held responsible and, for knowledge, also PROMAPLAST srl. However, PROMAPLAST srl cannot take any prohibitory actions with regard to the party apparently responsible for the violation, and a final decision in this regard can be taken only by the authorities entitled to pass judgment in this area. However, an exhibitor who, following notification of a patent dispute, is finally deemed to be responsible for the violation by the respective authorities might be excluded from successive editions of the Exhibition. Machinery is permitted to operate during the opening times of the show, or occasionally during said times, as long as this operation complies with all current safety norms, accident and fire prevention legislation, and within the existing limits of acoustic disturbance allowed into job environments. In any case, PROMAPLAST srl and FIERA MILANO spa are exempted from any and all responsibility for any types and extent of damage caused by the machines displayed. The exhibitor remains the sole responsible for said possible damages.

27 Damage caused by the exhibitor - Waste disposal

The exhibitor is responsible for all damage caused to fittings, plant, equipment and goods on show, and to the structures and plant in the halls of FIERA MILANO spa. The exhibition area assigned to each exhibitor at **PLAST 2026** must be returned in the same conditions in which it was consigned to the exhibitor. Any expenses incurred by FIERA MILANO spa in order to repair any changes that the exhibitor may have made, and any damage caused, are payable entirely by the exhibitor.

The collection, holding, transport and recovery of waste must be carried out in accordance with Legislative Decree no. 152 of 2006 as amended.

It is compulsory for the Exhibitor to remove waste from the Exhibition Centre, taking it to the authorised recovery/disposal plants, in accordance with current legislation.

Pursuant to the Technical Regulations, the Exhibitor and its representatives are responsible for the correct management of the waste produced inside the assigned exhibition space. It is forbidden for the Exhibitor (or its representatives) to leave waste of any kind inside the exhibition space, either in the assigned space or in the common areas (aisles, roadways, etc.). The Exhibitor or its representatives may remove the waste produced directly or by using the services of professionals authorised to handle waste, registered in the National Register of Environmental Managers, which can be consulted at the following address: <https://www.albonazionalegestoriambientali.it/Public/Elenchiscritti>.

The prohibition on abandoning waste and the related obligation to manage it correctly shall be construed as referring to all waste and residual materials from the set-up/disassembly work (packaging, materials used such as walls, false ceilings, floor coverings, etc.).

Is excluded from this obligation, however, the waste resulting from the cleaning of the stand during the Exhibition, carried out by the companies appointed by FIERA MILANO spa, concerning the cleaning of the floor, the cleaning of any coverings and the emptying of the stand waste bins.

In the case of abandonment of waste in the halls or inside the Fairgrounds, FIERA MILANO spa will apply a penalty of € 5,000.00, without prejudice to compensation for greater damages, and reserves the right to move away the responsible personnel from the Fairgrounds and to take legal action.

The Exhibitor is required to respect all the local regulations in force and in accordance with the provisions of the Regulations governing the collection of solid urban waste, separate collection and urban hygiene services, adopted by the Municipality of Rho - pursuant to art.

198, c.3 of Legislative Decree 152/2006 - during the exhibition the Exhibitor and its staff are required to separate the waste produced, separating it by type and nature in the bins located inside the halls and in the specially equipped outdoor areas. In this way, separate management of the different types of waste can be guaranteed and their recovery in controlled supply chains promoted.

28 Insurance - Limitation of Liability

28.1. "All risks" Policy of the Exhibitors (excluding terrorism and sabotage risks)

The Exhibitor is required to have an "All Risks" policy on the total value of all goods, machinery, equipment, and fittings brought and/or used in the Fiera District with a waiver of recourse against Fondazione Fiera Milano, Fiera Milano, the controlled and affiliated companies, the Organizer, and any third parties involved in the organization of the Event. In case of recourse by their Insurer, the Exhibitor guarantees to hold the above-mentioned parties harmless. Fiera Milano provides the Exhibitor, at no cost to the latter, an "All Risks" policy on goods, machinery, equipment, and fittings brought and/or used in the Exhibition District, for a capital of €25,000.00.

Coverage includes the stipulation of 10% insurance exclusion for each claim in the event of theft, with a minimum of Euro 250,00 and doubling this amounts for the reports submitted after the closing of the exhibition. This policy will not take effect in case of:

- public sale with immediate delivery of exhibited products, during Events where such activity is prohibited;
- early abandonment of the stand;
- delay without prior notice, in the retrieval of materials left in the District.

N.B.: For the purposes of this coverage, it is noted that software, money, goods, and personal effects (such as, but not limited to: personal devices, smartphones, cameras, bags, documents, clothes, keys, etc.) are not insured.

In the Exhibitors Portal, under the Manage Documents – Insurance section, you can find the link to receive information on the "All Risks" insurance coverage provided free of charge by Fiera Milano. For further information, contact: Marsh S.p.A. - Tel. (+39) 02 48538909 e-mail: fiera.milano@marsh.com.

28.2. Third Party Liability Policy

This coverage is automatically provided, free of charge, for all exhibitors by FIERA MILANO spa.

This will become an extension of its general policy that has a limit of no less than Euro 100,000,000.00 (one hundred million).

28.3. Limitation of Liability

The Exhibitor agrees to hold harmless FIERA MILANO spa and the Organizer from any liability for consequential losses, reputational damage, loss of revenues, etc. Also for any direct loss, since each Exhibitor has in custody/care the reserved exhibition spaces and is responsible for the goods contained therein, the Exhibitor agrees to hold harmless FIERA MILANO spa and the Organizer from any liability, for goods/values covered and/or not covered and/or exceeding from the above mentioned Art. 28.1.

The Organizer and Fiera Milano assume no responsibility for goods, materials, or anything else left unattended by exhibitors in the Exhibition District. For parking within the exhibition district: the Organizer and Fiera Milano assume no responsibility for custody or for damages or theft of vehicles parked within the Exhibition District. Parking is allowed for vehicles with the appropriate permit only in designated parking spaces and during the Exhibition District's opening hours.

The Exhibitor acknowledge that FIERA MILANO spa shall not provide insurance service/policy, or provide any benefit to the extent that the provision of such services or benefit would violate applicable law or expose Fondazione Fiera Milano, FIERA MILANO spa, their subsidiary and associated companies, to any sanction, prohibition or restriction under ONU Security Council Resolutions or under other trade or economic sanctions, laws or regulations.

Therefore the Exhibitor under those restrictions, will not be covered by any insurance policy and release hereby Fondazione Fiera Milano, FIERA MILANO spa, their subsidiary and associated compa-

nies, against all liabilities for any harmful event that may be suffered within the Exhibition Centers available / owned / managed by the aforementioned subjects, nor will have any action, claim or request against such Subjects, for the aforementioned events.

29 Food and catering services

Exhibiting companies can apply for FIERA MILANO spa food and catering services in the respective section of the exhibitor platform and/or by contacting ristorazione@fieramilano.it – tel. (+39) 02. 4997.6365/ 7425/7805. Third party catering companies and exhibitors who wish to offer food and drink to their guests of their own accord can purchase passes for access and resupply when submitting the necessary documentation.

The procedure is available on the Mandatory Documents - Catering section of the Exhibitor Platform and in the FIERA MILANO spa Technical Regulation. In accepting this General Regulation, exhibitors who provide their own catering separately from the services provided by FIERA MILANO spa declare that they are aware of the provisions of the Italian Prime Ministerial Decree dtd. 17 May 2020 and its amendments and agree to observe its requirements.

30 Complaints

Any complaint must be notified in writing by the exhibitor responsible for the stand to PROMAPLAST srl, which assesses each complaint, identifying responsibilities, in cooperation with FIERA MILANO spa in the respective competence areas, and taking the final and indisputable decisions in the best interest of the Exhibition.

31 Arbitration

Any dispute that should arise regarding the interpretation, implementation and resolution of these General Regulations and the FIERA MILANO spa Technical Regulations is settled exclusively by an arbitration committee consisting of three arbitrators, of which the first two are nominated one by each party, and the third by the first two. In the case that one of the two parties does not nominate its respective arbitrator, and after ten days have passed from receipt of the request to nominate an arbitrator notified by recorded delivery letter, the arbitrator is nominated for the respective party by the President of the Court of Milan.

In the case that the two arbitrators cannot reach agreement on the nomination of the third arbitrator, or if the third arbitrator has not been nominated within 30 days from the nomination of the two arbitrators, the President of the Court of Milan proceeds to nominate the third arbitrator on request by the first party to make the request. The arbitrators reach their decision by means of unrestricted and amicable discussion, without the necessity to follow specific procedures, and following the adversary principle of hearing both sides, if necessary reaching a compromise decision; their decision, reached according to the principles of law, is considered as wholly substituting the wishes of the two parties, who accept the decision as if it had been taken by the two parties directly, including the provisions regarding the expenses of the arbitration.

The arbitrators must accept their nomination within 10 days from notification, and their decision must be issued within the next 90 days, unless this period is extended by agreement of the two parties concerned.

32 Force Majeure

Should the date and/or times of **PLAST 2026** be altered, the duration of **PLAST 2026** be reduced or increased, or **PLAST 2026** be cancelled or postponed as a result of events and circumstances beyond the control of PROMAPLAST srl and/or FIERA MILANO spa – including but not limited to war (including undeclared war), embargo, riots or disorder, fire, sabotage, natural disasters, measures taken by authorities, epidemics, pandemics, health crises (Force Majeure) – the exhibitor is not entitled to withdraw from, terminate or cancel the contract signed on submission of the application to participate in the fair. When a Force Majeure event occurs, the obligations that the parties are unable to meet for this reason will automatically be suspended, without penalty, for the entire duration of the Force Majeure event itself. Without prejudice to the right of PROMAPLAST srl and FIERA MILANO spa to withhold any sums already paid by the exhibitors – to the extent that this is necessary to cover any actual expenses they may already

have incurred and to meet any obligations they may already have entered into with third parties, and subsequently to divide any remaining funds among the exhibitors in proportion to the individual payments made by the latter – the parties undertake, in line with the principles of good faith and fair practice, to take timely steps to agree their mutual obligations during the time the Force Majeure event persists, as well as to do everything in their power to ensure resumption, within the shortest possible time, of the normal contractual obligations that were suspended due to the occurrence of the Force Majeure event. In any case, a Force Majeure event shall not entitle the exhibitor to request compensation from PROMAPLAST srl and/or FIERA MILANO spa for any damages suffered.

33 Termination clause expressed

PROMAPLAST srl is entitled to terminate the contract by means of written notification to the exhibitor in the following cases:

- a) the exhibitor's failure to pay the invoice for the balance of participation fee within the deadline as in article 15 above;
- b) the exhibitor's declaration of bankruptcy, or his involvement in insolvency proceedings;
- c) the exhibitor's failure to comply with the procedures detailed in article 25 above.

In the case that the contract be terminated in accordance with this clause, PROMAPLAST srl is exempted from all its contractual obligations, and all the money already paid by the exhibitor is retained as reimbursement for the organizational costs sustained by PROMAPLAST srl. In addition, PROMAPLAST srl is entitled to take each and every form of legal action in order to recover the sums that may still be owed and to compensate any further possible damages.

34 Company data processing - Personal data - EU GDPR 2016/679

All the company and product information supplied by the exhibitor and the co-exhibitor with the application form, and successively after its acceptance, is entered into a digital database by PROMAPLAST srl operated in function of its trade fair and promotional activities, for the purposes applicable in relation to the participants at said trade fairs. Mr Mario Maggiani is the holder of data treatment as regards PROMAPLAST srl.

After the application form has been accepted, the exhibitor and co-exhibitor are required to notify PROMAPLAST srl promptly of any changes in the company details, product information etc. provided in the application form, and including the company's bank details which may be used by PROMAPLAST srl for possible payments and reimbursements at the settlement of final accounts.

The exhibiting company submitting the regular application form has sole responsibility for the consequences of failing to up-date said information.

1. The exhibiting company states to be informed that the provisions of the European (EU) General Data Protection Regulation 2016/679 ("GDPR") concern the processing of natural persons' data ("Personal Data") and do not apply to legal persons (companies), organizations and associations and the information ("Information") referring to these subjects, for which only the regulations on the electronic trade communications mailing remain, for which it is required to the exhibiting company (legal person, organization or association) to provide his/her prior consent to the mailing of such electronic communications for direct marketing purposes.

It is implicitly authorized by the exhibiting company the delivery of electronic communications of "organizational" kind, concerning the supply of contractual services, following the undersignature of the application form by the exhibiting company and related acceptance by PROMAPLAST srl.

2. The exhibiting company's Personal Data, where operating as a sole proprietorship, a small entrepreneur or a professional as well as his/her representatives, members, employees and collaborators provided in the application form or also issued subsequently, as well as those acquired from third parties (e.g.: partners, commercial information companies, etc.) or during the event (including, e.g. any photos or video recordings at the stands: see article 35) is collected and processed by PROMAPLAST srl and FIERA MILANO spa as Data Controllers

for their own specific activities (the “Data Controllers” or “our Companies”) pursuant to the terms described in the Privacy Note provided with application forms.

3. The attached note as referred to in the previous paragraph is provided by PROMAPLAST srl and FIERA MILANO spa in accordance to art. 13 of GDPR and the exhibiting company undertakes to convey it to natural persons (his/her representatives, members, employees and collaborators) whose Personal Data has been provided for the purposes of their participation in the event and of the provision of the connected services as well as to guarantee that the Personal Data is lawfully processed by our Companies for these purposes and to release from liability and/or to indemnify our Companies for every cost or damage caused by the exhibiting company’s breach of the duties of the undertaken obligations towards our Companies in accordance with this article.

35 Use of images of the exhibiting company acquired during the exhibition

In relation to the images of the exhibiting company, his/her stand and/or his/her representatives, members, employees and collaborators, taken or recorded in any way (such as, using cameras, video cameras or audiovisual recordings) during the event, the above-mentioned exhibiting company declares to be aware, pursuant to European (EU) General Data Protection Regulation 2016/679, that PROMAPLAST srl and FIERA MILANO spa may collect and process said images and disseminate them for informative, promotional and commercial purposes and therefore grants PROMAPLAST srl and FIERA MILANO spa the free use of the aforesaid images, for these purposes, as per articles 96 and 97 of Italian Law no. 633/1941, authorizing PROMAPLAST srl and FIERA MILANO spa to use them through any means of communication (including, for example, brochures, presentations, catalogues and, in general, all the printed material necessary for the promotion, TV, pay-per-view, etc.) and disclosure via internet (company website, social networks, etc.) or via magazines and other publications, including digital ones, with the rights to adapt and reproduce them for the purposes provided for by the law. For this purpose, the exhibiting company declares and guarantees to have:

- (i) obtained, if necessary, the authorization, after appropriate Privacy Note, of the data subjects for the processing of the data regarding their photos, video recordings etc. PROMAPLAST srl and FIERA MILANO spa, including their disclosure for informative, promotional and advertising purposes pursuant to the terms of the European (EU) General Data Protection Regulation 2016/679;
- (ii) obtained the authorization for the use and disclosure of the images, pursuant to Articles 96 and 97 of Italian Law no. 633/1941 on copyright, in the above-mentioned terms, from the natural persons portrayed or recorded, their representatives, members, employees and collaborators during the above-mentioned event.

In relation to the previous sections (i) and (ii), the exhibiting company undertakes to indemnify and hold PROMAPLAST srl and FIERA MILANO spa harmless from all disputes, actions or claims that may be raised by the above-mentioned persons with regard to the indicated use and disclosure of the relative images described above.

36 Unconditional and binding acceptance of the PLAST 2026 General Regulations and the FIERA MILANO spa Technical Regulations

By presenting the application form, the exhibitor and the co-exhibitor unconditionally accept these General Regulations for **PLAST 2026**, the FIERA MILANO spa Technical Regulations and any later additional provisions that may be adopted by PROMAPLAST srl and FIERA MILANO spa in the interest of **PLAST 2026**, and which must be automatically and unconditionally accepted as part of these Regulations to all effects and purposes.

On presenting the application form, in accordance with and by effect of articles 1341 and 1342 of the Civil Code, the exhibitor and the co-exhibitor acknowledge and expressly accept the articles 2-3-4-5-6-7-8-9-10-11-12-13-14-15-16-17-18-19-20-21-22-23-24-25-25 bis-26-27-28-29-30-31-32-33-34-35-36.
