PLAST 2023, Multiple Contact Opportunities One The Leading Trade Fair in Europe for the Plastics and Rubber Industry

Dear Readers:

A natural exhibition space for the plastics and rubber industry, especially as regards the machinery, equipment, and moulds segment, the exhibition is a complete showcase of the latest innovations by sector operators, with a focus on environmental sustainability, energy savings, recovery-recycling-reuse, and the circular economy

Why you should visit PLAST 2023

Innovation - In a continually evolving context, PLAST 2023 is an opportunity for operators in the plastics and rubber value chain to share and discuss cutting-edge solutions at stands and during the rich programme of conferences, workshops, and company presentations.

Triple opportunity - There are three satellite shows dedicated to three sub-sectors of excellence: RUBBER (dedicated to the world of rubber); 3D PLAST (focused on additive manufacturing and related technologies); and PLAST-MAT (for innovative plastics)

Networking Opportunities - 1,500 exhibitors and 63,000 visitors from 177 countries at PLAST 2018. Official delegations being organized from 30 countries for PLAST 2023.

Milan - Economic capital of Italy, in addition to business opportunities, Milan offers countless cultural, tourism, and recreational options, boasting excellent connections to the principal Italian destinations. PLAST 2023 takes place during a month characterized by pleasant weather, giving visitors the option of extending their stay to discover the beauty of Italy.

PLAST 2023 is open from Tuesday the 5th to Friday the 8th of September 2023, from 9.30 am to 6.00 pm without interruptions.

*We look forward to seeing you at FIERA MILANO!
See You at PLAST 2023 !*
